Re: Acceptance of Amended Notice of Intention to Small Mining Operations, Unique Minerals #1 Project, S/027/074, Millard County, Utah

Dear Mr. Stone:

Thank you for forwarding the amended Notice for Unique Minerals Inc.'s, Unique Minerals #1 Project, located in Section 24, T17S, R13W, Millard County, Utah which we received August 6, 1999. Your agency's designated number for this project is UTU-075884.

The Division has evaluated the amended Notice under the Small Mining Operation section of our Rules. The information provided in the notice meets the requirements of Rule R647-3 of the 1988 Division of Oil, Gas and Mining Minerals Rules, and Title 40-8, et seq., of the Utah Mined Land Reclamation Act of 1975. No additional information is required from the operator by the Division at this time.

The operator will be expected to comply with the same Operation and Reclamation Practices as indicated in the original notice unless a variance request has been provided to, and formally approved by the Division. This request would include the particular practice which the operator cannot comply with and an explanation describing the reasons why they cannot comply. A variance request is not required for the practices which refer to features which are nonexistent at the project site.

Approval of mineral exploration or mining operations by the Division of Oil, Gas and Mining does not constitute approval to commence operations upon lands under federal lands managed by the BLM. Before conducting mining operations on these lands, the operator must obtain written approval from your office.

Please provide us with a copy of your final acceptance letter to the operator. In addition, if you receive additional information or amendments for this operation, please notify us so we can update our files. Please reference our designated file number S/027/074 when forwarding additional information on this project to us.

Sincerely,

Tom Munson
Senior Reclamation Specialist
